

Brocade BigIron RX Series Switches

Product highlights

Data Center Aggregation

40G/100G, 512*10G 포트

- **Leading performance and scalability**
 - Up to 5.12 Tbps forwarding capacity in a chassis
 - Up to 1536 1 GbE or 512 10 GbE ports
 - Wire-speed, non-blocking performance
- **Optimum flexibility**
 - 4-, 8-, 16-, and 32-slot chassis
 - 24-, 48-port copper and 24-port fiber 1 GbE modules
 - 2-, 4-, and 16-port 10 GbE modules
 - LAN and WAN PHY on 10 GbE modules
- **High availability**
 - Management, fabric, and M+N power redundancy
 - Removable and load-sharing components
 - Hitless failover and software upgrade
- **Advanced, scalable software features**
 - Advanced (IPv4/IPv6) Layer 2/3 feature set
 - sFlow for granular network traffic accounting
- **Operational efficiency**
 - Best-in-class power efficiency
 - Front-to-back airflow (16, 32 slot)
