

Brocade Turbolron 24X Switch

Product highlights

24*10G 포트
488Gbps 고성능

Data Center Access

- **Data center-class performance**

- DC modularization with 10 GbE ToR solution
- Up to 488 Gbps line rate, non-blocking performance
- Up to 24 10 GbE SFP+ ports
- Cut-through architecture with ultra-low latency

- **Optimum flexibility and high availability**

- 1/10 GbE dual-speed ports
- Four 10/100/1000 MbE copper ports
- Redundant, removable, load-sharing power supplies
- Resilient triple-fan assembly

- **Advanced software features**

- Advanced Layer 2 features
- Robust security suite
- sFlow for granular network traffic accounting

- **Operational efficiency**

- Best-in-class power efficiency
- Compact 1U design
- Front-to-back cooling
